

When An Agent Enters a Listing in the MARTHA'S VINEYARD MULTIPLE LISTING SERVICE The Listing is Shared With Buyers Across the Globe.

When a listing is entered into the Martha's Vineyard Multiple Listing Service it will be found by buyers on the world's leading real estate search portals and marketing outlets. Not only will the listing be exposed to these leading publisher sites, but the information will be updated every few minutes so it is always current.

Members can search for and share detailed information about listings with potential buyers right from MVMLS, then contact the listing agent directly to schedule showings.

Listings are shared to ListHub, a syndication platform that distributes listings to more than 80 top real estate search portals in the world. Visit <https://www.listhub.com/publisher-list.html> to see the full list of sites.

The MVMLS data feed to realtor.com lets your listings be seen through the realtor.com distribution network, including move.com and other premier real estate search sites.
